

The Chess Federation of Burkina Faso has been inactive for a number of years, does not organize tournaments, and has outstanding membership fee debts to FIDE.

Its membership was suspended in July 2024 according to the Council decision:

CM2-2024/03 To approve Recommendation of Verification Commission on suspension of member federations in arrears, Burkina Faso and Rwanda.

No changes in its activities have occurred since the suspension. It is proposed to exclude this federation from FIDE membership.

The Constitutional Commission and the FIDE Council support this proposal.

Currently, a new, active federation recognized by the local authorities exists in Burkina Faso.

Its application for recognition will be considered as the next item on the Assembly's agenda.
